PROFILE

Full-Stack Developer and Technical Lead with experience building enterprise software for government organizations. Specialized in Laravel, PHP, React, Flutter, .NET/C#, PostgreSQL and SQL Server, with training in Artificial Intelligence (Microsoft Specialization, 150 h). I manage the full development cycle: requirements analysis, data modeling, REST APIs, automated PDF/Excel reporting and production deployment with GitLab CI/CD. Available for remote freelance or part-time work (10–20 h/week), evenings and weekends (UTC-6).

FREELANCE SERVICES

Laravel/PHP maintenance and new features · REST APIs and integrations · Automated PDF/Excel reports · PostgreSQL and SQL Server databases (modeling, optimization, backups) · Cross-platform Flutter apps · Technical documentation.

PROFESSIONAL EXPERIENCE

Project Lead – Integrated Human Resources System | IMSS-Bienestar *April 2026 – Present*

- Lead the design and development of an integrated Human Resources system with Laravel 11, PHP and PostgreSQL, centralizing administrative and personnel processes for [N] employees.
- Implement document management and digital employee records integrated with Alfresco ([N] modules), improving traceability and control of institutional information.
- Design relational data models, role-based security schemes and access controls to protect sensitive information.
- Build automated PDF and Excel reports, cutting report generation from [N] hours to [N] minutes.
- Manage servers, deployment environments and GitLab CI/CD pipelines (dev/qa/main branches), with [N] production releases.

Systems Developer / Full-Stack Sub-Lead | Municipality of Pachuca de Soto *July 2025 – April 2026*

- Led development of [N] internal systems for administrative and finance departments using .NET, C#, PHP, JavaScript and SQL Server.
- Coordinated a team of [N] developers: progress tracking, code quality and delivery of objectives.
- Designed and improved web applications aligned with operational requirements and institutional processes.
- Administered SQL Server databases and IT infrastructure to ensure availability, business continuity and security of critical systems.
- Took part in functional analysis and in defining technology solutions to optimize government processes.

Shift Supervisor / Trainer / Barista | Starbucks *2024 – 2025*

- Supervised daily operations and coordinated teams of [N] people per shift to meet service and quality standards.
- Trained [N] new hires on operating procedures, customer service and company policies.
- Handled operational issues and task allocation in high-volume environments.

Junior Systems Developer | Hopewell System *2023 – 2024*

- Developed cross-platform web and mobile applications with Flutter, Dart, JavaScript and PostgreSQL.
- Implemented front-end components and business features, improving performance, stability and user experience.
- Administered and optimized PostgreSQL databases to improve application availability and efficiency.
- Collaborated on systems integration and source-code management with Git and remote repositories.

PROJECTS

Abyssan | github.com/KevinBAG2001/Abyssan | TypeScript

Local, self-hostable graphical Git client to visualize commit history (DAG), stage commits and run Git workflows safely from the browser.

TECHNICAL SKILLS

Languages: PHP, Python, JavaScript, C#, VB.NET, Dart, SQL, HTML5, CSS3

Frameworks: Laravel 11 (Blade), React, Flutter, .NET (MVC), REST APIs, Bootstrap, Tailwind CSS

Databases: PostgreSQL, SQL Server (T-SQL), relational modeling, query optimization, backups and maintenance

DevOps & version control: Git, GitLab CI/CD (Auto DevOps), GitHub, GitKraken, dev/qa/main branching strategy, continuous deployment

Infrastructure & support: Web server administration, environment configuration, access management, technical support

Documentation: Alfresco, technical documentation, records management, PDF and Excel reporting

Soft skills: Technical leadership, requirements analysis, project management, team coordination and training, problem solving, customer service, communication

EDUCATION

Software and Network Engineering (Ingeniería en Software y Redes) | UNITEC 2023 – 2025

High school, ICT track | Preparatoria Siqueiros 2015 – 2019

CERTIFICATIONS & TRAINING

Microsoft Artificial Intelligence Specialization (150 h) Jan 2026 – Jul 2026

Centro Público de Formación en Inteligencia Artificial (Mexico), 1st cohort

C#, DevOps and .NET course · Dart and Flutter course

LANGUAGES

Spanish: Native · English: Intermediate (B1–B2)
